

Amendments to the Drawings

Please replace the current version of Figures 1a, 2 and 3 with the replacement drawings, also consisting of Figures 1a, 2 and 3, enclosed herewith.

Remarks

Pursuant to 37 C.F.R. § 1.312, the applicant respectfully requests that the amendments set out herein be entered into the above noted application. It is respectfully submitted that the amendments provided herein are directed to merely correcting formal matters in the specification and drawings without changing the scope of the claims. As such, it is submitted that the Examiner has the authority to enter these amendments submitted after the Notice of Allowance.

No amendments have been made to the claims.

The amendments provided herein are needed for the complete disclosure of the invention and do not require a substantial amount of additional work on the part of the Office. As such, consideration and entry of these amendments are requested.

No new matter has been added.

Amendments to the Drawings

The formal drawings submitted with the applicant's response to the March 8, 2005 Office Action were incomplete. The formal drawings placed on file by way of the March 8, 2005 amendment omitted subject matter that was present in the informal drawings. The replacement drawings submitted herewith include the subject matter that was present in the informal drawings as originally filed but omitted from the formal drawings submitted on March 8, 2005.

The specific amendments to the drawings submitted herewith are indicated in the table on the next page.

| Figure | Amendment |
|--------|---|
| 1a | Reference numerals 80, 82, 105 and 107, which were present in the originally filed informal version of Figure 1a, have been added to the formal version of Figure 1a. |
| 1b | There are no amendments to the formal version of Figure 1b. |
| 2 | A damper denoted by reference numeral 177, a blower denoted by reference numeral 173 and a pressure differential control apparatus denoted by reference numeral 175 have been added to the formal version of Figure 2. Element 178 has been modified to clearly indicate that it is a damper, to be consistent with the other dampers 176, 177. Each of these elements and its associated reference numeral was present in the originally filed informal version of Figure 2. |
| | Reference numerals 131 and 153, which were present in the originally filed informal version of Figure 2, have been added to the formal version of Figure 2. |
| | Arrows designated "A" and "B", which were present in the originally filed informal version of Figure 2, have been added to the formal version of Figure 2. |
| | Reference numeral 156, which duplicatively identified the element indicated by reference numeral 153, has been deleted from Figure 2. Reference numeral 153 was present in the original informal version of Figure 2. |
| 3 | Reference numerals 119, 190, 192, 194 and 196, which were present in the originally filed informal version of Figure 3, have been added to the formal version of Figure 3. |
| | The notations " $P_{\text{STATIC BOOTH}}$ ", " $P_{\text{STATIC PLENUM}}$ " and "MAXIMUM FLUX", which were present in the originally filed informal version of Figure 3, have been added to the formal version of Figure 3. |
| | The indication " θ_1 " in the formal version of Figure 3 has been replaced by the indication " $i(\theta_1)$ ", which appeared in the originally filed informal version of Figure 3. |

Amendments to the Specification

The specification has been amended to correspond to the formal drawings submitted herewith.

The applicant does not believe that any fee is payable in respect of this amendment. If any such fee is in fact payable, please charge any such fee, and please credit any overpayment, to Deposit Account No. 02-2553.

Conclusion

The applicant respectfully requests that the Examiner enter the amendments submitted

herewith. Should any Patent Office official want to telephone, the call should be made to Mark D. Penner (Registration No. 48,092) at 416.863.4283.

Yours very truly,

A handwritten signature in black ink, appearing to be 'Mark D. Penner', written over a horizontal line.
